SDS Model

Economy Model

Specifications:

Speeds:

"Economy Model"

* Round only: Up to 1320 trays per hour

"SDS Air-Stop Model"

* Round: Up to 900 trays per hour

* Square: Up to 700 trays per hour

* Multiple heads for an individual tray can be installed for increased speed

Power: 230v, 3ph, 10A

Air: 10cfm @ 100 psi

Dimensions: Typical lengths range from 7' to 20' long

Features:

- * Designed & built custom for any dispensable container and carry tray combination
- * Optional automatic carrier tray de-stacker or trays can be hand loaded (SDS only)
- * Optional rolling casters
- * Multiple pot sizes can be used on a single dispensing head with quick-change mechanical adjustments

The SDS & Economy Pot Dispensers automatically dispense pots and shuttle trays to reduce labor requirements on planting lines. For the SDS, both round and square pots can be accommodated. In order to change pots sizes at the "turn of a switch", several different size pot dispensers can be mounted in series on one belt. For longer production runs or seasonal plastic program changeovers, a single pot dispenser can be adjusted for different pot sizes and shuttle tray configurations.
