

Quality Solution For All Growers .....

# H35 HAND SEEDER

From *K W Automation*

**"State-of-the-art technology allows accurate sowing."**

- ▶ Sow seeds of all shapes and sizes (From as small as Petunia to as large as Watermelon).
- ▶ Seeds up to one row/sec. (with any plug tray.)
- ▶ Eight sets of needle sizes are included with each machine.
- ▶ Quickly And Easily Change Seed Types And Trays.
- ▶ A vacuum collects seed in a removable glass jar for quick and easy change-over of seed varieties.
- ▶ Air Compressor optional.

State-of-the-art technology allows growers to accurately sow seeds of all shapes and sizes.

A vacuum is drawn through an array of interchangeable syringe needles to pick up the seeds.

The H35 now available in the Standard, Midi and Widebody model. The Midi and Widebody seeding the tray width ways and the Standard, length ways.

All standard trays can be used and changing from one tray to another is a simple procedure.

Double, triple and quadruple needles can be used to sow multiple seeds per cell (optional).
