## Specifications:

### Container Size Capacity:

Up to 16" W x 12" H

### Planting speed:

Up to 60 pots per minute

### Electrical Requirements:

230 VAC 3 Phase/ 25 Amps

### Features:

- \* Variable speed, vibrating planting conveyor
- \* Powered pot transfer
- \* Variable speed hopper conveyor
- \* Direct drive power transmission
- \* Sealed bearings
- \* Self-tracking belts
- \* Height adjustable soil spreader / wiper ( removable for bare-root potting )

As large containers become volume items, growers appreciate the efficiency and flexibility of the Large Container Filler. This versatile filling machine takes literally seconds for container change over. The vibrating planting conveyor ensures consistent compaction for transplanting plugs or bare-root potting. Custom sizes and dual hopper designs are available.
