- * High-pressure spray nozzles
- * 32 Gallon hot water wash tank with re-circulating pump
- * Cold water rinse section
- * Easy to transport

Options:

- * Expanded wash tunnel for larger tray sizes

The TW2 tray washer is a cost effective machine for the hygienic cleaning of most common young plant and shuttle trays. The TW2's relatively light weight and small footprint allow it to be moved into place when you need it and safely stored when it's not in use. A tray washer can be the answer to reducing plastic waste in these times of heightened environmental awareness and skyrocketing material prices.
